- Problem-solving
- Detail-orientation
- Agile/SCRUM

## Lead Software Engineer - Frontend Developer

### Experience

> 10 years

#### Lead Software Engineer at EPAM Systems, Vancouver, BC, Canada

07/2023 - current

- Working with Angular 16+, advanced scrolling, transitions, and animation techniques
- Architecting a research application, focusing on its configurability, scalability, and reusability
- Transforming Angular components to custom framework agnostic Web Components
- Developing a backend service using Google Cloud Platform with Node.js, Express, and MySQL

#### Lead Frontend Engineer at Lululemon, Vancouver, BC, Canada

05/2023 - 07/2023

- Curated a complete project redesign and common UI library creation used across the customer's digital products
- Optimized the bundle size, performance, scalability, and usability

#### Lead Software Engineer at Novartis, Remote

01/2020 - 03/2023

- Was leading a team of 8 developers from 5 projects where I integrated microfrontends architecture
- Built BFF query handlers with AWS Lambda functions in NodeJS
- Set up CI/CD, implemented linting, integrated units-tests and e2e-tests, configured SonarQube
- Added a standalone Angular application to Nx monorepo where I implemented reusable components
- Conducted webinars and live coding sessions, prepared my mentees for promotion assessments

#### Senior Software Engineer at Barclays, Prague, Czech Republic

07/2017 - 12/2019

- Created and maintained large Angular applications, reusable components and libraries
- Worked on data visualization using D3.js, Highcharts, ag-grid-enterprise
- Wrote project documentation and coding guide describing used design patterns and architecture

#### Freelance Web-Developer at different companies and start-ups, Remote

01/2015 - 07/2017

- Developed user interfaces for web apps using CSS3 animations & transitions, Bootstrap and Material UI
- Implemented web-sockets communication and state management architecture
- Visualized a ships tracking system at Succorfish using Google Map API
- Completed migration from jQuery to AngularJS single-page app for an influencer marketing platform

#### Frontend Developer at Retail-Online, St. Petersburg, Russia

09/2013 - 12/2014

- Developed frontend for corporate web sites, e-shops, landing pages, HTML newsletters, converting PSD to HTML, CSS, JS
- Implemented themes for Wordpress, Joomla, Drupal, and other CMSs

#### Web-Developer at Ludilangues, Strasbourg, France

09/2012 - 09/2013

- Created a web-platform from scratch containing more than 20 different company's projects using HTML, CSS, JavaScript
- Came up with the designs for the websites ensuring usability and smooth user experience

### Education

09/2004 - 06/2008

- Bachelor's degree in Electronic Industry Equipment, Computer Technologies, East Ukrainian State University
